

# Making all the decisions...

*This checklist is designed to help provide an overview of the majority of the decisions we'll need to make together to finalize the design of your custom cabinetry. If you have an idea that's not on this list, let us know! We thrive on custom, so this list will never be truly complete. It's best for you and for our team if all of these decisions can be made before we reach Step 5. Let your designer know if you would appreciate additional meetings before the deadline to feel confident in your decisions.*

## Cabinetry
